

CCSDS CD-ROM Release Notes

August 11, 1997

The Consultative Committee for Space Data Systems (CCSDS) document collection contained on this CD-ROM comprises all CCSDS Recommendations (Blue Books) and Reports (Green Books) that were in print as of the CD-ROM's issue date. This CD-ROM will be updated and reissued as new and revised CCSDS documents are published (CCSDS documents are usually approved for publication at semiannual CCSDS Management Council meetings). Users should investigate the possibility of obtaining the most recent issue of the CD-ROM.

Current CCSDS publications as well as information about the CCSDS can be found on the CCSDS Web pages at the following URL:

<http://www.ccsds.org/ccsds/>

Suggestions for Use

The CONTENTS.PDF file contains an annotated list of the documents contained in the CD-ROM collection. Clicking on a citation for a given document opens that document for viewing or printing. Users with Adobe Acrobat™ Exchange version 2.0 or greater or Adobe Acrobat™ Reader 3.0 with index search capability can perform key-word searches on the entire collection using the INDEX.PDX file in the CCSDS folder.

This CD-ROM was produced by NASA/Goddard Space Flight Center Code 500. Questions or comments concerning this product should be directed via e-mail to the following address:
